About Me

Full Stack Java Developer with hands-on experience building scalable, secure applications using Java, Spring Boot, Spring Security, and RESTful APIs, paired with React.js on the frontend. Skilled in MySQL, Redis caching, and Docker. Focused on solving real-world problems with a product-oriented developer mindset.

Experience

- HACKGEAR 2.0 HACKATHON — URL Shortener**
 - Built URL Shortener during a 12-hour solo hackathon and successfully deliver an end-to-end working application.
 - Developed secure REST APIs and backend services using Java, Spring Boot, Security, JPA/Hibernate, and MySQL, .
 - Provide advance UI and frontend services using Html, Css, Js and React js.
- ACEHACK 2.0 HACKATHON — Student Help Desk**
 - Built a platform during a 36-hour hackathon in a 4-member collaborative team environment.
 - Developed backend modules and secure APIs using Spring Boot, Spring Security, and MySQL.
 - Worked closely with team members to integrate frontend and backend components.

Projects

WorkMitra — Employment Platform for Local Daily Workers | Final Year Project

- Designed and built a scalable backend connecting local daily workers with job providers, reducing job discovery friction in the informal labor market.
- Architected complete backend and database layer in a 2-member team, exposing REST APIs consumed by the frontend.
- Integrated Redis for caching and Kafka for asynchronous messaging to support scalability.
- Delivered production-ready platform in a 1-month timeline through daily Git/GitHub collaboration

(9+ total supplementary projects built to reinforce backend architecture, database design, and API development fundamentals)

Do Blog Application, Chat Application, Task Tracker, Voting System, Hospital Management System, Student Management System, Library Management System

Education

- BachelorofTechnology (Btech) in Computer Science and Engineering** 2022 - 2026
Dr. APJ Abdul Kalam Technical University CGPA : 7.6
- Intermediate in PCM** 2021 - 2022
Agrasen Inter college, Aligarh Percentages : 74.80%
- High School in Science** 2019 - 2020
Agrasen Inter college, Aligarh Percentages : 79.83%

Technical Skills

- Programming** : OOPs, Core Java, DSA in Java
- Frontend Development** : HTML5, CSS3, JavaScript, React.js (ReactJS), Tailwind CSS, Axios, Responsive Web Design
- Backend Development** : Spring Boot, Spring MVC, Spring Security, Spring Framework, JPA, Hibernate, RESTful APIs, REST API Development, MVC Architecture
- Testing & Logging** : JUnit, Mockito, Unit Testing, API Testing(Swagger), SLF4J/Log4j Logging
- Database** : MySQL, Relational Database Design, Redis (Caching)
- DevOps & Tools** : Docker, Kafka, Maven, Git, GitHub
- Actively practices AI-assisted development workflows (prompt engineering with Claude, ChatGPT and Gemini for accelerated problem-solving)
